

## Metal Fabrication, Pressings

AE Harris & Co (Birmingham) Ltd

.

Giving our customers

.

"What they want, when they want it".

.

Metal fabrication, pressings by AE Harris Ltd in the West Midlands UK. For over 130 years this maxim has governed the operation of A.E.Harris & Co (Birmingham) Ltd, whether you require pressings, metal fabrication, tool making, sub contract welding, CNC machining, tube bending, laser cutting or any other services we may provide. Please read on for further details on the services provided by AE Harris Ltd, or click on the top or sidebar menu to read in more indepth detail about the services provided by AE Harris Ltd.

The same mission statement reinforces the dedication of the A.E.Harris staff in providing pressings, metal fabrications etc to all of our clients.

&ldquo;By continuous quality improvement programmes, our aim is to ensure conformance to customer requirements at all times by adherence, (as a minimum quality discipline) to the demands of BS EN ISO 9001:2008 on items within our scope of registration.&rdquo;

As well as metal fabrication and pressings, A.E.Harris & Co, (Birmingham) Ltd deliver a complete engineering solution for all your requirements, including tool making, laser cutting, CNC machining, tube bending and welding, and we aim to provide clients with what they want and always to their specification.

Using specially developed & dedicated laser cutting software, this rapidly creates a CNC cutting program that is stored for as long as the client requires.

This saves time when specifying occasional metal fabrication jobs, and ensures the clients' requirements are exactly the same quality standard each & every time they order.

As a long established Birmingham based company AE Harris has within its team of staff decades of experience in metal fabrication, pressings and tool making.

If you require more information about metal fabrication, pressings or any other service provided by AE Harris & Co. (Birmingham) Ltd, then please telephone 0121 233 2386 or email to: [sales@aeharris.co.uk](mailto:sales@aeharris.co.uk) and one of the AE Harris technical team will be happy to discuss your requirements.
